

1. Walks Scheduled:

- a. Oct. 27th: Solebury Meeting house Graveyard tour: Jessie Crooks
- b. Spring/Summer 2014: Underground railroad site: tour being organized by Linda.

2. Museum

I dropped this front he Strategic plan and will now work, slowly, to remove our presence from the Township lobby. Any questions? Ideas on approaching them?

3. NHSHS CEC (Community Engagement Committee)

They are canvassing organizations to involve students in community engagement activities as part of the Sr. Year Student community involvement credits.

I will approach them with the idea of students taking oral histories of individuals we select, or individuals we "OK" that the student selects. This idea will be organized with Jim's input etc.

4. Student project:

Megan Ruffe, Penn State Sr. Student is working with us on an Oral History Web page(s) for our web site. this is part of a Sr. Paper and project she is doing.

1. Roof restoration/replacement is set to begin 1st or 2d week of September depending on weather leading up to that date. The material has been ordered this week from Marvic. Upon Delivery I will work with Elaine to make sure we pay this directly to get discount.

2. Bilco Door

Looking for one that fits the size. Initially the one ordered turns out to be the wrong size. Dale is going to take this and reimburse us for it, or pay the extra for the new one he sources. He is attempting to get one that metal but has the effect of wood, beading etc. "historically aligned."

3. Outside water outlet, next to Bilco Door.

Work should be done by end of August. As it is a small job, contractor will do it when he has time. Contractor: Leo Jaison: estimate is \$450.00

4. Electric:

Contractor: Brad Livezey. He will finish application for permit after his holiday (about Aug. 15th.) In addition he will approach Peco to start organizing the switch to an underground system. Peco will install a meter on the outside of our building. I will work with Elaine on our PECO account as this process unfolds.

5. Windows and painting windows:

I still have this open. Looking at other vendors besides Dale Jolliffe. Trying to reach a better price as well as correct work.

6. Gutter Guards: Contractor: Otto Alber. price \$850.00

Work will be done after roof is completed.
