

Development Report
October 2013
Melody Hunt

Like I mentioned earlier in October family matters, have taken precedence as far as any of my free time is concerned. You will be happy to know that the Fund I have started to raise money for my sister's medical expenses is chugging along splendidly.

Also, I would like to say that I would never have even thought of taking on this challenge had it not been for the STHS board roping me into a job that I had absolutely no experience nor inclination for. So, thank you. It seems I've learned a lot.

I mentioned in my letter of nomination for honored citizen that I learned a lot from John Touhey in his "just do it" attitude. But I also learned from Donneta, who has the "I'll do it" down, and Elaine, who gave me "keep doing it". Between the three of you, I'm doing it! And I'm just going to keep doing it 'til its run it's course. Its an amazing journey.

This is about all the time I have right now. So, over and out!

One more thing, Elaine has all the information on the dinner: hosts, guests, \$\$ gained already fully formulated.

Another, I was able to speak to a certain school board candidate about my displeasure with his uninformed tirade about STHS and the existing school board and then turn around his turnaround with the nomination of a young parent to our board. That settles that!
