

STHS Board Meeting Oral History Report RAMcEwan March 5, 2014

1. STHS Tape Conversion program

- * will be completed with the addition of Malcolm Crooks' video and the Lathrop sisters' interviews in the coming weeks.

2. New Hope HS Tape conversion project

This is making strong progress and we expect all digital versions will be available to our team to work on by the end of March. (tape to MP3). Write ups and their eventual upload to the web site are progressing. We would hope to finish this work by July 1st. 10 NHHS interviews are now up on our web site.

3. Web Site Archive

- * We now have about 30 interviews on the site
- * It is estimated we will have between 45 to 50 interviews up by the summer months.
- * A proposal is in Donneta's hands to consider asking HSP to add this as a separate Archive along with the 4 we have now. It would be split out what is currently called "Local Collection."

4. High School CEC OH program

- *The permission paperwork forms have been completed by NHSHS counselors.
- * Internally all eligible students and the Social Studies teachers have been briefed on the opportunity.
- * First meeting with interested students is scheduled March 5th, 2:30 at the School library.
- * Depending on interest over the coming months, until end of School year, we will see what next steps we should consider to keep the program going into future years.

NOTE: never ending thanks to Beth for doing great work putting the Interviews on the web which takes a great deal of preparation work and hours, not to mention patience with me.
