

Membership Report, May 2014.

Penny Armagost

Elaine Crooks helped me out by printing over 100 labels and renewal letters for membership. The forms were sent out and at least 35 people have renewed their memberships so far.

Beth Carrick, John and I went to the Locktender's House to meet with Susan Taylor this morning (May 7, 2014) to see the database that is used by the Friends of the Delaware Canal, and by Yardley Historic Association. The program is called Exceed. There are two levels-basic and beyond. Basic would be appropriate for our organization. The cost is between \$40-\$50. It is a one time cost. Information can be exported to Excel. We are looking into. Each member, or couple, has a separate entry and information can be added to their entry-i.e. initial joining dates, subsequent renewal dates, level of membership. All of the information can be sorted by topics and reports extracted. Beth, John and I thought it looked like an appropriate software package, especially for the cost.
