

1. Michener Art's Museum project is moving along well. All of their tapes will be converted to discs by Feb. 15th. The posting to the web site should recommence in February. Expect the project to wrap up about end May.

2. We managed via the good offices of all involved to get a Newspaper article published in the Herald about the project and the Bye interview in particular.

3. Two video's from Historic Carversville Society have now been posted to our web site. One is the full version of the Robert L. Green Bucks county video form 1977. The 2d is a good video interview of Ned Harrington. We will be following up with HCS to see if we can continue the project in the coming months.

4. OH Grant project took a back seat to other needs. See Charlotte's report for nest steps in this effort.

5. Will Rivinus interviews are "in line" for processing via Beth to the Web site. no rush.

*****end of report*****
