

1. Michener Art's Museum (MAM) archived tapes project is moving along. 3 tapes left to post on the web. Early June now seems a realistic deadline.
2. Historic Carversville Society project has gone before their Board and been approved. However their volunteer time is limited so we will not get to next steps until mid summer. In September I have been asked to visit their Board meeting to talk about the project.
3. Will Rivinus' has expressed interest in doing a 6th interview on the topic of his major book: the Delaware and Lehigh National Heritage Corridor. Jack Donahue has said he will do it.
4. A list of possible interviewees is attached.
5. Ranulp Bye's daughter, Catherine Bye Caster's tape of her family talking about Bycroft are posted our site.
6. Phoebe Taylor, Artist, horsewoman and author Oral History is on line. Her pamphlet/books are scanned. Beth has them and in June/July she will be able to post them to our "Book Collection" under Library on the web.
7. Nancy Pyle McGee contacted us with high praise for our total web site. A second email has been forwarded to Judy for looking to see what we have in the archives on the houses Ms. McGee is interested in. She will visit from Florida in May/June and we plan to do an oral history of her memories of her Solebury life in particular her experiences at the schoolhouse in the 1940's, teachers etc. She will also bring photos of her and her friends at the Schoolhouse from this time, something our archives lack!
8. Gayle Goodman may come on board as an interviewer. Will take a few meetings to get this going.
9. Robert met with DeeDee Bowman of NHHS to discuss her ideas on jointly tackling getting volunteer interviewers identified, trained and active. While this is not so easy, we will continue to talk about our mutual ideas and see what we can generate. DeeDee has a good list of possible interviewee but now understands the interviewers are the issue.

End of report
