Mr. McEwan

As long as the owners have given you permission, that is fine with me. If you have any email from them, please send it and I will put it in the file. If you do not, don't worry.

Best wishes,

Jeff

Dear Mr. Marshall,

You have helped us in the past by allowing us to use your information on our web site. I come back to you again to ask if you feel you need to give permission or not, and if so to give it.

STHS is putting articles and information , photos etc. about the Aquetong Lake area on a web page to mark the passing of the lake.

One section will address properties around the lake and down the stream.

Heritage Gave the owners of the Reeder Property, the attached report and they have given us permission to publish it. Can you give your permission as well?

The web site will begin in the next two weeks and we will continue to add items to it as the dam is deconstructed and a new stream bed emerges. I will let you know when it is up and running and perhaps you will think of other valuable data to contribute.

kind regards,

Robert A. McEwan
STHS Board Member
