

1. Building

A. Security system quotes received from Panella Security and Holicong Security. We will wait until CCAHA sends us their report on idea changes to the building. The Board Should be aware this is an issue and think about if we want to set up a security and fire alarm system.

B. Cellar Door

This was fixed at landscapers, snow removers, expense.

c. Radcliffe Photos

Mr and Mrs. Radcliffe, who grew up in Solebury, left us some copies of old photos and old postcards. As they care computer copies and not scans they are not suitable for posting to our web site or really, keeping. I have asked them for the originals , on loan, so we can scan them for our web site. Some are quite outstanding and Mr. Radcliffe will also be able to tell us dates etc. We will organize the work for Beth's return so she can do the scanning properly.

2. Gwen and Dick Carlson working on cataloguing the photos once used (1970's and '80's) to apply for historic designation has come to a halt. We need to write up a program for student participation in this work and see if we can get some free hours of volunteer work. ACTION: Robert / Judy to discuss.

3. Cellar Door was broken by the snow plowing . Needs attention.

3. One Solebury history student, who won a scholarship last year is interested in possibly doing a 3 week , unpaid, internship in May. She would let us know in April if this works for her. We will devise a program to sort & catalogue parts of the photo collection, unless Judy and team come up with other ideas. Lets wait until the young lady decides.
