

V.P.

Security System is installed:

1. Need to key in security codes and alert list of who to be contacted by security company in case for alarm, fire etc.

1a. Then inform Board of numbers, security codes, put on the board pages.

1b. Ex.Committee agreed that the list of people to be on the security call list are: President, Vice President, Sect. provided all of them live somewhat close to the schoolhouse.

2. clean out the cellar a bit as there is still items from the pre remodel days that are no longer needed. **In progress**

3. Rejected the offer of the deeds, which was good as we were given more in the Wilson collection...

4. Cellar door lock: **contacted Brad Livezey to install a hasp and lock system on Cellar door. "just do it"**

5. Tree Pruning Plan and action:

This remains to be finalized due to V.P. sloth. will get to it. we have several quotes. We also need to be mindful of the black Gum on Suga side that is growing out of proportion to schoolhouse but was a dedicated donation. The family will have to be contacted for "permission" to cut the tree down and another replanted else where as dedicated to their lost child.

6. NHSHS year books

We worked with the history teacher, Fred, and have catalogued all the books he has. Jane did a spread sheet and we will shortly try to get him to donate some of the extra's (by year) he has. We should consider using this catalogue and spreadsheet to campaign with our members and a public Herald article for donations of the "missing years". They are good research documents, fun and of general interest.
